

# PRODUCT INFORMATION SHEET

# BISCUIT CEREAL MEAL

## Product Description

Biscuit Cereal Meal is a product processed from biscuits and cereal food products that are manufactured for human consumption. It is a dry product that has undergone a cooking process that results in greater feed digestibility and feed efficiency than unprocessed grains. It is very high in energy and highly palatable.

Biscuit Cereal Meal is suitable for supplementary feeding or as an ingredient in total mixed rations for poultry, pig, dairy and beef cattle.

**Product Ingredients:** Blend of biscuit and cereal food products.

## Product Standard Specification

- Dry matter : 92%
- Protein : 10.7%
- Energy(ME) : 14.1 MJ/kg DM
- Crude Fibre : 2.9%
- Fat : 6.1%

## Feeding Recommendation

Requirements will differ depending on diet. As a guide, if feeding Biscuit Cereal Meal you should introduce slowly to adult dairy cows at 500g per cow per day, increasing to a maximum of 4kg per cow per day.

## SUITABLE FOR FEEDING TO LACTATING DAIRY COWS

## Important notes

It is not recommended to feed Biscuit Cereal meal ad-lib unless it is mixed 70% PKE/30% Biscuit Cereal meal. Due to high palatability and grain levels there is a risk cows will gorge and overfeed. This could lead to acute rumen acidosis.

## Storage

Store in a dry area. Ensure all precautions are taken to store away from bird and rodent infestation.
